

# Fall Prevention Program Reboot

**Session Title:** Engaging the IDT Troops in Fall Management

**Presentation Date:** July 8, 2026

**Presented By:**

- Janine Lehman, RN, RAC-CT, CLNC

**Contact Person:**

Proactive Medical Review and Consulting [kayla@proactiveltcexperts.com](mailto:kayla@proactiveltcexperts.com)

**Course Description:**

Engagement of the IDT Troops is essential for successful fall management. Each discipline brings insight and experience to all components of the fall management process. Beginning with the Fall Scene Investigation and Root Cause Analysis to evaluation of the fall contributing factors and determination of effective interventions, the IDT provides opportunities and perceptiveness that one staff member alone cannot offer. This webinar will identify strategies for assigning IDT roles/duties for fall management. Sample tools will be reviewed to assist the team members with their assigned roles, as well as insights for conducting IDT meetings for successful identification, implementation and monitoring of fall management interventions.

**Learning Objectives**

1. Become familiar with strategies for assigning IDT roles/duties for fall management.
2. Identify tools for assisting team members with their assigned roles in fall management.
3. Understand methods for conducting team meetings for successful identification, implementation and monitoring of fall management interventions.

**Course Content**

20 min.: Review of strategies for assigning IDT roles/duties for fall management.

20 min.: Examination and discussion of tools that assist team members with their assigned fall management roles/duties.

15 min.: Identification of methods for conducting team meetings for successful fall reduction/prevention.

5 min.: Questions and answers

**Target Audience:** Nursing Leadership staff (DON, ADON, Unit Managers, Nursing Supervisors), Administrators, IDT Fall Investigation Members, Therapy, Restorative, QA/Risk Management Staff

**Instructional Level:** Intermediate

**Program Length:** 60 minutes

<b>List Learning Objectives: What participants will gain from attending this session:</b>	<b>Content: Bullet-point list of information covered to meet learning objective</b>
1. Become familiar with strategies for assigning IDT roles/duties for fall management.	<ul style="list-style-type: none"><li>• Review of IDT roles/duties to be completed for fall management.</li><li>• Discussion of roles/duties that are a 'best fit' for each discipline with examples of assignments</li></ul>
2. Examination and discussion of tools that assist team members with their assigned fall management roles/duties.	<ul style="list-style-type: none"><li>• Examination and discussion of tools to assist team members with their assigned duties<ul style="list-style-type: none"><li>-Fall scene investigation</li><li>-Fall Risk Assessment review</li><li>-Medication review</li></ul></li></ul>

## Fall Prevention Program Reboot

	-Resident and staff interviews -Fall tracking/trending
