

Fall Prevention Program Reboot

Session Title: Care Planning Strategies for Achieving Success

Presentation Date: July 15, 2026

Presented By:

- Janine Lehman, RN, RAC-CT, CLNC

Contact Person:

Proactive Medical Review and Consulting kayla@proactiveltcexperts.com

Course Description:

Fall Management Interventions cannot be effective if they are not addressed on the care plan, implemented consistently, and monitored/revise as needed. This webinar will focus on successful care plan strategies for fall management. Methods for developing and reviewing/revise the care plan for falls will be reviewed along with processes for promoting consistent implementation of fall management interventions. Practical strategies for timely monitoring of fall care plan intervention effectiveness will be shared along with samples of fall management care plans.

Learning Objectives

1. Become familiar with methods for developing and reviewing/revise fall management care plans.
2. Understand the process for promoting consistent implementation of fall management interventions.
3. Identify methods for monitoring fall care plan intervention effectiveness.

Course Content

20 min.: Review of methods for developing and reviewing/revise fall management care plans.

20 min.: Examination and discussion of the process for promoting consistent implementation of fall management interventions.

15 min.: Identification of methods for monitoring fall care plan intervention effectiveness.

5 min.: Questions and answers

Target Audience: Nursing Leadership staff (DON, ADON, Unit Managers, Nursing Supervisors), Administrators, IDT Fall Investigation Members, Therapy, Restorative, QA/Risk Management Staff

Instructional Level: Intermediate

Program Length: 60 minutes
